

INDUSTRIAL SOLUTIONS

WHO WE ARE AND WHAT WE DO FOR YOU

Our unique approach integrates Stellar's 35+ years of knowledge in industrial refrigeration for food processing plants and cold storage facilities. We collaborate with our clients to offer innovative solutions that save money while ensuring quality. Stellar can even take total ownership of your refrigeration system. That means end-to-end services and accountability — from system design to installation, to ongoing maintenance and repairs.

TECHNICAL SERVICES

Stellar's refrigeration team includes engineers, PSM specialists, automation and controls experts and service technicians. Their goal is to deliver the best possible service and value to our clients.
