Stellar offers NH360 Penthouse refrigeration units to optimize your building configuration. The flexibility of rooftop installation reduces capital costs and saves valuable interior space. Long-term benefits include high efficiency design and ease of maintenance. With the refrigeration units located outside your workspace, there is less risk to your personnel. These units also include full emergency shutdown capabilities.
ADVANTAGES

- Easier maintenance access
- Full-size access door
- Optimized airflow
- Refrigerant located outside the space
- Completely factory built

OPTIONS

- Stainless steel
- Speed controlled motors
- Ammonia detectors
- LED lighting
- Reheat coils
- Custom configurations
