

# NH360 PACKAGES — POWERED BY TURBOCOR®

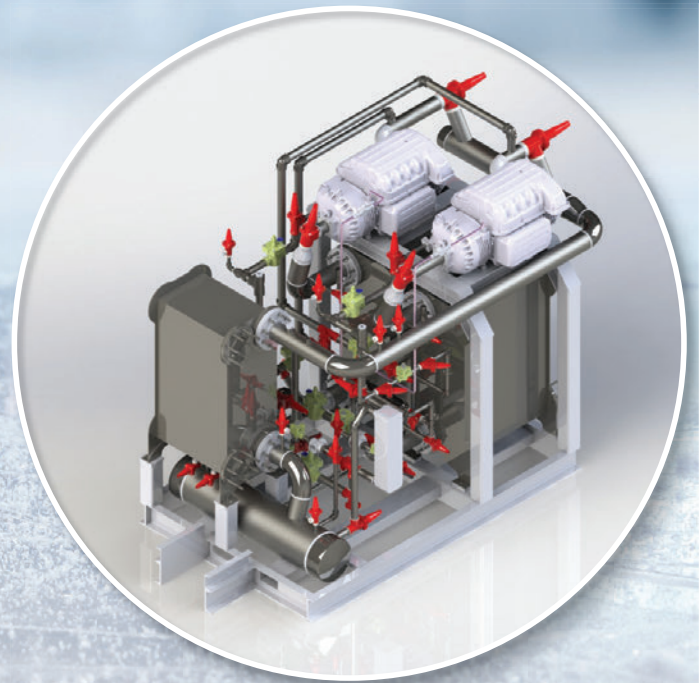

## NH360

NH360 Chiller Packages now available with the world's first oil-free compressor for high lift/low temperature applications

### BENEFITS:

- ▶ Utilizes low GWP (global warming potential), nontoxic and nonflammable Opteon™ refrigerant
- ▶ Reliable oil-free, magnetic bearing compressors offer the lowest possible operation and maintenance costs
- ▶ Chiller specific design delivers optimum energy efficiency
- ▶ Available in air or water cooled configurations to work for all retrofit opportunities
- ▶ 10°F to 50°F leaving fluid temperature
