

ALL-IN-ONE SOLUTIONS FOR MEAT & POULTRY

Stellar, a world premier design-build firm, is the only meat and poultry production and processing team you need from concept to completion. Our award-winning team of industry experts work with established as well as up and coming manufacturers with any size operation. **We understand that every food plant is unique and requires custom design.**

Stellar's integrated team of professionals is your design and build partner for food processing

With more than 1,000 clients and projects around the world, Stellar is capable of serving the entire food manufacturing, processing and packaging industry. Our unique approach integrates Stellar's 37 years of experience. We self-perform many critical components that impact the quality of design and construction of meat and poultry processing and cold storage facilities, including thermal envelope, mechanical, utilities and industrial refrigeration.

Stellar ranks as the No. 3 Food & Beverage Manufacturing Contractor by Engineering News-Record (ENR)

Our *Taking Solutions Further*[™] commitment to exceed client expectations is based on our technical expertise with a fully integrated approach. Whether it's design-build, design only, renovation, or construction only, our integrated team of experts creates innovative solutions using the latest technology.

- Fully Integrated Firm
- Turn-Key Design-Builder
- Site Evaluation, Selection and Acquisition
- Feasibility Studies, Master Planning and Budget Development
- Production, Packaging and Automation
- Industrial Engineering, Material Handling
- Architectural and Engineering Design
- Industrial Refrigeration Design, Installation and Maintenance
- Supply Chain Strategies
- Construction Management
- Process Engineering
- Thermal/Building Envelope

By self-performing many critical components, Stellar maintains control over project quality, costs and timelines.

WE'RE PROUD OF THE WORK WE DO FOR THE GREATEST CLIENTS IN THE INDUSTRY.

Check out some of our award-winning projects:

Stellar designed and constructed a state-of-the-art sous vide facility for Cuisine Solutions that minimizes food safety risks while reducing potable water usage by 30%. The facility was recognized by *Food Engineering* magazine as the 2021 Sustainable Plant of the Year and by *Engineering News Record (ENR)* for Excellence in Sustainability and Best Manufacturing.

The Bell & Evans poultry processing facility built by Stellar in Fredericksburg, PA was named the 2016 *Food Engineering* magazine "Fab Food Plant".

The Keystone Foods poultry processing plant earned the 2010 ABC Excellence in Construction Safety award and was named the 2010 *Food Engineering* Plant of the Year.

PARTNERS FOR THE LONG TERM

Stellar has the knowledge of the meat and poultry processes that you need to get your plant designed, built, commissioned and into peak-operation. We have enjoyed many successful, long-standing partnerships with meat and poultry industry leaders such as:

Bar S Foods	Michigan Turkey Producers
Bell & Evans	Pilgrim's Pride
Boar's Head	Premium Standard Farms
Columbus Foods	Rosina Food Products
Cuisine Solutions	Smithfield Foods
Dakota Provisions	Sara Lee
Farbest Foods	Sigma Alimentos
Hormel	Southern Family Foods
Johnsonville Sausage	Swift Prepared Foods (JBS)
Keystone Foods	Wayne Farms
Maple Leaf Foods	

The beef and pork industries face complex challenges in food safety, productivity, product quality and escalating costs

As a member of the American Meat Institute's groundbreaking sanitary design task force, Stellar helped develop the industry's widely accepted 11 food safety principles. This level of expertise and leadership in the meat industry ideally positions Stellar to assist and guide you through the many important decisions that come with incepting a facility.

Stellar's portfolio spans a wide spectrum of meat and poultry processing steps from animal handling, through slaughter to packaging and on to distribution.

WHAT CAN STELLAR DO FOR YOU?

Stellar is a proven leader in design-build for the food & beverage, cold storage, and industrial refrigeration markets. Stellar's partnerships with industry leaders, extensive design capabilities, and over 37 years of experience in the industry will provide your company the edge you need to Take Solutions Further.
